

Description:

- Aisle lights are UL listed and prewired at the factory.
- Round hooded and rectangular are housed in a steel enclosure behind the aisle panel. The concealed aisle light fixture is recessed into the bottom of the armrest. The low voltage Patriot and Pem Lights are self contained and mounted to the aisle standard.

Interchangeability:

- The 120v round hooded and rectangular aisle lights are available on the traditional steel (8C) platform only.
- The low voltage concealed is available on the traditional steel and cast iron platforms.
- The low voltage Patriot aisle light is available on the Patriot platform only.
- The low voltage LED light is available on the E-Link, traditional steel (8C) only.
- No aisle lights are currently available for the Cast Stadium platform.

Options:

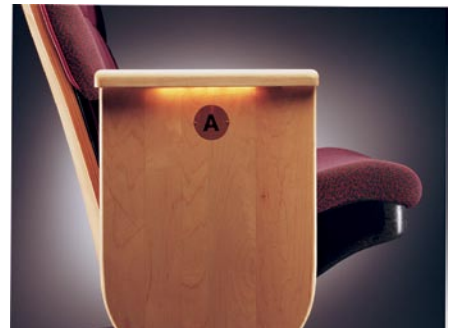

- The 120v round hooded and rectangular aisle lights are available in Irwin Seating Company's standard powder coat colors.
- The low voltage Patriot aisle light is available in the four Patriot plastic colors.

120v Round Hooded
